Isilon Scale-Out NAS Family

Isilon Scale-Out NAS Family

		Performance (Per Chassis)	Capacity Range (Per Chassis)			
All-Flash Nodes	F800	 <p>250K ops/s, <1ms 15 GB/s read</p>	96 TB		924 TB	Extreme Performance and Scalability
Hybrid Nodes	H600	 <p>120K ops/s 12 GB/s read</p>	72 TB		144 TB	Performance, Capacity and Value
	H500	 <p>5 GB/s read</p>	120 TB		480 TB	
	H400	 <p>3 GB/s read</p>	120 TB		480 TB	
Archive Nodes	A200		120 TB		480 TB	Capacity & Economics
	A2000				800 TB	

ISILON

Future-Proof, Modular Chassis
All Flash, Hybrid and Archive Nodes

Isilon Next Gen Platform: Compute

Features

- 4 Nodes in 4U Chassis
- Intel Broadwell CPU:
Optimized Compute to Drive Ratios
- Up to 6 TB Cache per Node
- No Single Points of Failure
- Networking Flexibility:
Infiniband, 10GbE/40GbE

Isilon Next Gen Platform: Compute

Benefits

- 4:1 Reduction in RU
- Optimized IOPS and Throughput
- Future-Proof, Enduring Design: Snap-In Next Gen Compute, Networks
- New Levels of Modular, Hot-Swappable Serviceability

Isilon Next Gen Platform: Storage

Features

- From 72TBs to 924TBs in 4U
- 5 Drive Sleds per Node. 3 to 6 Drives per Sled
- Front Aisle, Hot Swap Sleds and Drives
- Media Flexibility: Flash, SAS and SATA

Isilon Next Gen Platform: Storage

Benefits

- Start Small and Scale
- Breakthrough Density
- Simplified Serviceability and Upgrades
- Future-Proof Storage

Unconstrained Scale

Push-Button Linear Scaling

Under 60 Seconds

Transparent to Users and Applications

TCO Optimization: Simplicity and Ease of Use

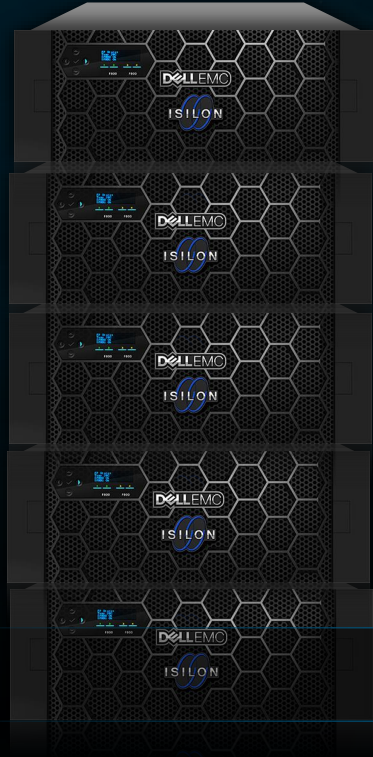

Single File System Spans All Nodes

- Automation:
 - NO manual intervention
 - NO reconfiguration
 - NO server or client mount point or application changes
 - NO data migrations
 - NO RAID

Directories and Files Striped Across Cluster

TCO Optimization : AutoBalance Capacity and Performance

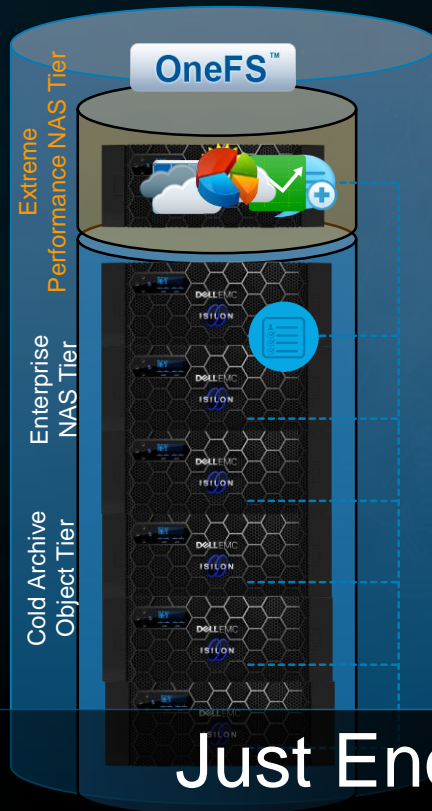

Delivers Over 80% Storage Utilization

AutoBalance Across Nodes

- Automation Balances Data
 - Reduces Costs, Complexity, Risk
 - Eliminates Hot Spots
 - NO data migrations
 - NO RAID

TCO Optimization: Policy-Based Automated Tiering

HIGHEST PERFORMANCE

LOWEST TCO

- Tier Between Performance, Enterprise and Archive Nodes
- Transparent to Users and Applications

Just Enough Flash

Enterprise Grade Features

Data Protection & Efficiency

SnapshotIQ

Fast, Efficient Data Backup And Recovery

SyncIQ

Fast And Flexible Asynchronous Replication For DR

SmartConnect

Policy-based Client Failover With Load Balancing

SmartLock

Policy-based Compliance and WORM Data Protection

SmartDedupe

Data Deduplication to reduce storage costs

Data Management

Search

Fast, Heuristic Queries on Files and Metadata

SmartPools

Policy-Based Automated Tiering

SmartQuotas

Quota Management And Thin Provisioning

InsightIQ

Performance Monitoring And Reporting

CloudPools

Cloud-scale Capacity

Enterprise Grade Features: In-Place Analytics

Native HDFS

Speeds Time to Insight

Enterprise Data Protection for Hadoop

Lower costs

- Eliminates dedicated Hadoop infrastructure

Increase flexibility

- Simultaneous support for any Apache-compliant Hadoop distribution

ISILON

Edge – Core - Cloud Flexibility
